

Flexible Part-Time / Experienced Senior Structural Engineer
(Industrial, Bridges and Marine)
Nanaimo, BC

Are you an experienced Engineer thinking of semi-retiring and looking for an opportunity to live and work on Vancouver Island?

Our Nanaimo office has a great opportunity to continue working on exciting and diverse projects in a flexible environment to suit your semi-retirement plans.

Herold Engineering Limited is a Vancouver Island based consulting civil and structural engineering firm with offices in Nanaimo, Victoria and Ucluelet. We are a dynamic and diverse company with over 65 employees involved in a wide variety of public and private sector building, transportation, marine and civil/municipal infrastructure projects in British Columbia. We are a community based company making a difference by supporting local businesses, charities and organizations.

Nanaimo, which is centrally located on the east coast of Vancouver Island, 110 km north of Victoria, and 55 km across the Strait of Georgia from Vancouver, is a rapidly growing city. Its central location, mild climates, outdoor recreational activities and affordability make Nanaimo the ideal place to live, work and play.

At Herold Engineering we aim to create a work environment where balance between personal life and work life is valued, so that our employees can enjoy the fantastic natural environment that Vancouver Island life has to offer. We work closely with clients from all over British Columbia and beyond and we are just a float plane or ferry ride away from Vancouver.

Employment Opportunity:

Herold Engineering is looking for a Senior Structural Engineer with over 30 years of experience specializing in bridges, industrial and marine structures to work on various projects; mainly in British Columbia, Canada. Our projects generally include the design of new structures, assessments of existing structures, as well as retrofit and seismic upgrade projects.

The job is ideal for someone looking for an opportunity to mentor staff, review project work and be involved in the design of our challenging and diverse projects that Vancouver Island brings as it continues to grow.

This is not expected to be a full time position and we will work with you to develop a mutually beneficial and flexible work schedule. We have similar semi-retired staff that are be available to discuss the variety of options for this type of work at Herold Engineering. The position will be office focused, however there may be a need to visit job sites on occasion. The company offers competitive salary or hourly pay based on experience.

Requirements:

- 30 years + of experience specializing in bridges, industrial and marine structures to work on various projects
- Candidates must be registered or eligible for registration as a Professional Engineer with EGBC (previously APEGBC).
- Must have experience in designing in steel, concrete and timber.

-
- Candidates will be familiar with current local code requirements including CSA S6-14.
 - Familiar with mentoring Staff.
 - Flexibility and a broad range of project experience is desired.

Our project sizes range from small to large projects and are well diversified. Candidates should be comfortable with Herold Engineering's philosophy of work diversification.

How to Apply:

Resume and cover letter can be emailed, faxed or mailed directly to Herold Engineering Limited at the following address:
