## Senior Structural Engineer (Industrial, Bridges and Marine) Nanaimo, BC

Are you looking for an opportunity to live and work on Vancouver Island in beautiful British Columbia? Recent growth in our Nanaimo office has created a fulfilling career opportunity in our industrial, bridges and marine department.

Herold Engineering Limited is a Vancouver Island based consulting civil and structural engineering firm with offices in Nanaimo, Victoria, and Ucluelet BC. We are a dynamic and diverse company with over 65 employees involved in a wide variety of public and private sector building, transportation, marine and civil/municipal infrastructure projects in British Columbia. We are a community based company making a difference by supporting local businesses, charities and organizations.

Nanaimo which is centrally located on the east coast of Vancouver Island, 110 km north of Victoria, and 55 km across the Strait of Georgia from Vancouver, is a rapidly growing city. Its central location, mild climates, outdoor recreational activities and affordability make Nanaimo the ideal place to live, work and play.

At Herold Engineering we aim to create a work environment where balance between personal life and work life is valued, so that our employees can enjoy the fantastic natural environment that Vancouver Island life has to offer. We work closely with clients from all over British Columbia and beyond and we are just a float plane or ferry ride away from Vancouver.

### Employment Opportunity:

Herold Engineering is looking for a Senior Structural Engineer with a minimum of 10 years of experience specializing in bridges, industrial and marine structures to work on a variety of projects; mainly in British Columbia, Canada. The projects would generally include the design of new structures, assessment of existing structures, as well as retrofit and seismic upgrading projects.

The job is ideal for someone looking for an exciting opportunity to further their career in a great working environment with a supportive team. The company offers competitive salary along with a strong benefits package which includes the opportunity of share ownership based on performance.

### Requirements:

- Minimum of 10 years of experience in bridges, industrial and marine structures working on a variety of projects
- Registered or eligible for registration as a Professional Engineer with EGBC (previously APEGBC)
- Have experience in designing in steel, concrete and timber
- Be familiar with current local code requirements
- Willing to travel as needed to service our numerous projects located throughout British Columbia. Attendance at active construction sites will be a part of the job and candidates should be familiar with the process of periodic engineering review of works-in-progress, to determine general conformity with design documents
- Have a valid Class 5 British Columbia driver's license

---

Our project sizes range from small to large projects and are well diversified. Flexibility and a broad range of project experience is a benefit. Candidates should be open to developing new skills, and comfortable with Herold Engineering's philosophy of work diversification. They should be familiar dealing directly with a wide range of government and private sector clients and have a focus on client and customer service.

How to Apply:

Resume and cover letter can be emailed, faxed or mailed directly to Herold Engineering Limited at the following address:
