

Position:	Building Enclosure - Co-op Student
Status:	2021 / 2022 Winter Opportunity
Location:	Nanaimo, BC

### **Are you looking for a Co-Op Opportunity?**

Herold Engineering Limited is always looking to hire enthusiastic engineering students who have basic training in building enclosure/Energy Modelling Engineering with some field experience in basic construction. We are looking for hard working team members with great communication skills to join us for a 4-8 month Co-op Program this fall or winter.

### **Our Company:**

Herold Engineering Limited is a Vancouver Island based consulting civil, structural building envelope, marine and bridge engineering firm with offices in Nanaimo, Ucluelet, and Victoria, BC. We are a dynamic and diverse company with over 70 employees involved in a wide variety of public and private sector building, transportation, marine and civil/municipal infrastructure projects in British Columbia. We are a community-based company making a difference by supporting local businesses, charities and organizations.

At Herold Engineering we believe in a healthy work life balance and we promote growth from within our organization. We are dedicated to our staff and the continuing of professional development.

### **Co-op Opportunity Roles and Responsibilities:**

During your co-op work term with Herold Engineering you will gain the following experience:

- ✓ Mentorship and leadership in building enclosure, building design, project management and Energy Modelling from senior and junior engineers and technologists.
- ✓ Experience on-site performance testing of building enclosure assemblies, including air leakage and window water testing.
- ✓ On-site field reviews of building enclosure detailing
- ✓ Hands on experience working on a wide variety of private and public sector projects
- ✓ Through direct guidance, students will have the opportunity to participate in a variety of administrative, engineering, or technology projects and practice utilizing basic principles and concepts learned while dealing with existing clients.
- ✓ Through direct guidance, students will assist in the investigation of existing buildings, including visual review of as built conditions, documenting conditions via field notes, sketches, and photos, and providing recommendations for repair, renewal or rehabilitation.

**Requirements:**

To fully benefit from this co-op opportunity, candidates must meet following requirements:

- ✓ Minimum 3rd or 4th Year University Level in Civil Engineering with Building Science experience
- ✓ Advanced working knowledge of Microsoft Office
- ✓ Ability to perform operations utilizing AutoCAD
- ✓ Strong interest in the field of building enclosure engineering
- ✓ Strong Team Player with solid communication skills

**How to Apply:**

Please apply by email or mail including your transcript, cover letter, and resume including references. In your cover letter clearly write in the subject line **"BE CO-OP STUDENT OPPORTUNITY ATTN: JARROD KOSTER"**

Please state ideal start of work term and length of period (ie. 4 month, 8 month etc.) available for.

**Subject Line: "BE Co-Op Student Opportunity: Attn: Jarrod Koster"**

**Attention: Jarrod Koster, P.Eng., Principal**
