

Position:	Junior Structural Technician – Industrial, Marine and Bridges Group
Status:	Permanent, Full Time
Location:	Nanaimo, BC
Salary Range:	\$60,000 - \$75,000 (based on 37.5 hrs. / week)

Our Company:

Herold Engineering Limited is a Vancouver Island based consulting civil, structural building envelope, marine and bridge engineering firm with offices in Nanaimo, Ucluelet, and Victoria, BC. We are a dynamic and diverse company with over 65 employees involved in a wide variety of public and private sector building, transportation, marine and civil/municipal infrastructure projects in British Columbia. We are a community-based company making a difference by supporting local businesses, charities and organizations.

At Herold we believe in a healthy work life balance and promote growth from within our organization through dedication to our staff and continuing professional development.

Employment Opportunity:

Recent growth in our firm has created an exciting opportunity for an enthusiastic and experienced individual in structural engineering to join our company in our Nanaimo location. We are currently looking for a Junior Structural Technologist with a good understanding of AutoCAD, concrete, steel, and timber framing, and strong written and verbal communications skills to work in our Industrial, Marine and Bridges group.

AutoCAD experience required for this position. Ongoing on the job training will be used to further develop the successful applicant's skill set.

A competitive salary, excellent work environment and participation in a well-respected, growing consulting firm await the successful candidate.

Roles and Responsibilities:

The role includes both office duties and onsite work on industrial, bridge and marine sites. Onsite work is likely to include reviews of bridges, wharves and piers, working at heights, and working on the water on barges and work boats. The work may also include onsite documentation of construction activities and other assessments of structures. The role will also include report writing and collaboration with other team members.

Generally, the responsibilities of this role include:

- Create detailed structural engineering documents for steel, concrete, and timber framed building using Autodesk AutoCAD.
- Meet project deadlines and work efficiently
- Perform construction site reviews
- Perform structural condition assessments and report preparation
- Use excellent organization and communication skills in all aspects of job performance
- Ability and ambition for continuous improvement and increasing responsibilities

Requirements:

- Diploma in Civil/ Structural Technology
- Ability to utilize Autodesk AutoCAD as the primary documentation tool
- Proficiency with MS Office applications

- Strong technical, written and verbal communication skills
- Excellent people skills and ability to operate as part of a team

Living in Nanaimo and on Vancouver Island:

- Herold Engineering Limited creates a work environment where balance between personal life and work life is highly valued, so that our employees can enjoy the fantastic natural environment that Vancouver Island life has to offer.
- Nanaimo offers young professionals the opportunity to build meaningful careers without sacrificing quality of life. Located on Vancouver Island and surrounded by ocean, forests, and mountains, the city provides a vibrant community, growing industries, and easy access to outdoor adventure. It's a place where emerging talent can thrive professionally while enjoying a lifestyle that's hard to match in larger urban centres.
